NOTES ON NEWS OF THE DAY.

REMOVAL of an attempt upon the life of the Czar last Sunday, were current in Paris and Bucharest yesterday. He was said to have been wounded by an exploding shell. The story has not been confirmed.

ANTHONY COMSTOCK has detected David Blair, Postmaster at Broadbain, Fulton county, in receiving and forwarding letters to the "green goods" swindlers of New York. With all his fame for speed, Mr. Wamaker is not turning the rascals out fast enough.

It is settled that President Harrison and wife will be the guests of Vice-President Morton at the New York residence during the centennial celebration, and after that will come to Ellerslie for a few days' rest. This is the only vacation that the President has planned.

In the little town of Palmyra, Nebraska, Bibles are so scarce that the local newspaper published last week the Ten Commandments as a piece of news. It is evident that the newspaper has gone ahead of the missionary and colporteur in Eastern Nebraska, and is doing their work.

SALZMAN, the Swede emigrant who beat Mrs. Mutter to death at Irvington, N. J., a few weeks ago while her husband was absent on his milk route, was captured near Barneget last night and locked up in jail at Newark. He is a first-class subject for Jersey justice to try a rope upon.

The Secretary of the Treasury is getting all the 44 per cent bonds that he wants at 8 per cent premium, and the extinguishment of the public debt is proceeding at a very satisfactory rate. The substitution of a statesman for a bookkeeper at the head of the Treasury Department is producing good results already.

JUDGE THURMAN is again in Washington. He walks about with the assistance of his son and a cane, and is very feeble. The campaign of last year has told severely upon him. A society for the prevention of cruelty to old men should be organized before the next Democratic National Convention meets.

THE Albany schools are to celebrate the Washington Centennial with appropriate literary exercises, consisting of patriotic music, quotations, compositions and readings. The opportunity to teach patriotism to the children of the nation should not be lost. If this had been made a branch of universal education we should have had no rebellion.

The lower house of the Illinois Legislature has prepared a bill to make the Illinois and Michigan canal a ship canal to its connection with the Illinois river, and to widen that river to its mouth. This will give ship navigation between Lake Michigan and the Mississippi river, and afford Chicago an outlet for its sewage.

The business of marrying by proxy is proceeding with great energy in the Mormon church. A friend stands for the husband, thus making these marriages difficult to prove, though they are binding under the Mormon law. Gentiles seldom adopt this method, the only instance on record being that of Miss Van Zandt and the Anarchist Spies.

A LETTER from one of the half-breeds of the Lonsdale exploring party states that the noble Lord never went within the limits of the Arctic circle at all, but traveled and suffered by proxy. All of the time of his absence was spent within the limits of civilization, principally in Alaska and the region around Mackenzie's bay. His example is to be commended to all Arctic explorers. The whole business has been and is a grand humbug, and should be left to semi-royal fakirs like Lonsdale.

THE man who caused Russell Harrison's arrest for libel has undoubtedly an itching for notoriety. He could have received the same correction and apology from the paper of which Mr. Harrison was President that he accepted from the Buffalo paper that published the original libel, but he insisted upon a personal apology from Harrison himself, which would have been an admission of responsibility that the facts do not warrant. There cannot be impounded a jury of twelve men in the United States who would give Gov. Crosby a verdict under the circumstances.

At Allegan, Mich., last Monday night, a man named Hurlbert, who had frequently whipped his wife, was taken from his house by a half-dozen women and thrashed unmercifully with bickory switches. A young woman living in Hurlbert's house was notified to leave on pain of similar treatment. She stood not on the order of her going. The wife is understood to have endured the excitement very well. She exhibited much more sense than the woman in Indiana who had threatened to shoot some white caps who had come to whip her husband because he had whipped her.

THE Methodist Book Concern is one of the most profitable business enterprises in the country. At the Northern New York Conference in Lowville yesterday a report of the business of the past year, just received from the management in New York, was read. The net sales had been over \$1,000,000 and the profits \$135,000. A regular dividend of \$50,000 had been declared, and also a special centennial dividend of \$50,000 to the annual conferences. A new building, to cost \$1,000,000, is now being erected for the Concern. It has been well earned.

KEPLER's saloon at Oakland, Ind., has been closed through the persistence of some temperance ladies. They first set a watch on the outside of the saloon and took the names of all the men who visited it, but these men refused to swear before the grand jury that they were customers, and no indictment was returned. Then the ladies organized themselves into committees, and took turns at sitting inside of the saloon and taking the names of purchasers of drinks. Persecution could not drive these reformers out, though one gallant customer put a skunk under a lady's chair and caused her to faint. The saloon is now closed and several indictments have been found against the proprietor.

SAW MILL SAFE IN CANADA.

DANISH STEAMER DANMARK WRECKED. When Seen Its Stern Was Laid with the Sea and Bow Out of Water.

By Cable to the Freeman.
QUEBEC, April 12.—The Inman Line steamer City of Chester from New York, arrived to-day. It reports that on April 8, at latitude 46 N., longitude 67 W., it passed the Danish steamer Danmark from Christiania and Copenhagen for New York. The Danmark had been abandoned by its crew. Its stern was level with the sea and its bow stood high out of the water. It was apparently sinking. The Danmark was a vessel of 2,300 tons, and belonged to the Thingval Line. It was commanded by Captain Knudsen.

There is great excitement here over the abandonment of the vessel. The Thingval Line is probably the largest carrying immigrant line that plies between this port and Europe. The Danmark had on board, when it left Christiania, 650 passengers, presumably all immigrants. The crew numbered 40 men. The office of the agents of the French, Edye & Company, has been thronged with people all day anxiously inquiring for later news of the vessel. The agents as yet have no news to give them.

The Danmark was formerly the Belgian steamer Jan Breda. It was built in 1880, and was 340 feet long, 45 feet in breadth, and 26 feet deep. It was built at New-Castle, England, in 1880.

The steamer Iceland, of the Thingval Line, which left Copenhagen four days later than the Danmark and is due here to-night, will probably bring some intelligence of the disaster.

MISHAP TO STEAMER CONANICUT.

By Telegraph to the Freeman.

NEWPORT, R. I., April 12.—During a fog this morning the steamer Conanicut, running to Jamestown, ran ashore on the rocks in the outer harbor, making a large hole in its hull. The passengers were landed in a tug.

STRUCK BY A HURRICANE.

By Telegraph to the Freeman.

NEW YORK, April 12.—The steamer Tropic arrived to-day from Progress. The hurricane struck off Hatteras and inflicted some damage. On April 7 a ball of fire fell close to ship, enveloping it with red sparks.

SIR C. RUSSELL CONGRATULATED

By Presiding Justice Hannen for His Speech in Defense of Parnell.

By Cable to the Freeman.

LONDON, April 12.—Sir Charles Russell to-day concluded his speech before the Parnell Commission in defense of the Parnellites. He undertook to show that the money Parnell gave Byrne which the prosecution alleged was given for the purpose of enabling Byrne to escape, was meant by Parnell to be used for the ordinary purposes of the National League, and that Parnell did not know of any part of the money being used for the purpose of enabling Byrne to escape. "The Court," Sir Charles said, "was trying the history of the Irish revolution." He asked that fair and generous consideration be given it. If prosperity was refused to Ireland, thanks to God, but affairs were unhealthy in that country, where the people considered the imprisoned members of the House of Commons heroes and martyrs. Sir Charles declared he did not speak merely as the advocate of the accused members of the House of Commons, but for the land of his birth, and he believed, in the best interests of England. The inquiry, which was intended to be a curse, had been a blessing. It had been designed for the purpose of raising one more money Parnell. He had finished Presiding Justice Hannen passed a note to him in which he said: "I congratulate you. Your speech was a great one and worthy of a great occasion."

TRIAL OF BOULANGER AND ASSOCIATES

French Senate Constituted a Tribunal by a Decree Read To-day.

By Cable to the Freeman.
PARIS, April 12.—When the Senate met to-day the President read the decree constituting that body a tribunal for the trial of General Boulanger, Count Dillon and Henri Rochefort. The Procureur General, Quesnay De Beaupre, read a statement setting forth the grounds upon which the prosecution of the accused is based. The Senate went into secret session and the public withdrew. The trial of General Boulanger and his associates was then formally begun. The Senators had been requested to appear in evening dress for the occasion. This request was ignored by the members of the Right, all of whom wore frock coats. The members of the Left were attired in evening dress and wore white cravats.

GIFTS TO CORNELL UNIVERSITY

By Ex-President White, who is Now Traveling in Egypt.

By Telegraph to the Freeman.

ITHACA, N. Y., April 12.—Ex-President White, now in Egypt, has given to Cornell University a library of many of much interest found about two years since in Egypt in the tomb of a priest of the Ptolemaic period. It represents certain chapters of the "Book of the Dead," is beautifully executed, perfectly preserved, and a complete document in every respect. The inscriptions are partly hieroglyphic, partly hieratic, and is a list of religious sort, the most remarkable being the "Last Judgment of Saul Before Ish and Osiris." This embraces Osiris upon his throne, the great balance before him, the weighing of the dead priest's heart in one scale against the image of truth in the other, while about the balance are grouped the weighing of the preceding and the accusing gods, the four tutelary Genii, and the 42 assessors. He has sent to the University a collection of about 140 large photographs to illustrate ancient and modern Egyptian art.

SPRING NOTICE.

By The Beautiful and Accomplished Artist

A POINTER.

As every reader of this paper knows, it has become one of the fine arts to write attractive and interesting advertisements—especially medical ones.

Now it seems to us that if, for instance, the world-wide advertisers of Warner's Safe Remedies would adopt a style whereby they could work in a startling story of, say—wolves, we believe the immense sales of their medicines could be still more largely increased. We give them the benefit of the idea at any event. Let it commend like this:

Patter! Patter! Patter!
There it is again. It is not fifty yards from where he last halted. The steps are too light for those of an Indian. A grizzly would rush after a panther would hurl himself through thirty feet of space, with a scream to unnerve the hardest hunter. "Wolves," whispers the hunter, as a howl suddenly bursts upon his ear.

Wolves! the gaunt, grizzly wolves of the foot-hills—thin and poor and hungry and savage—their legs tireless—their mouth full of teeth which can crack the shoulder-bone of a buffalo. He can see their dark forms flitting from point to point—the patter of their feet upon the parched grass proves that he is surrounded—yet no more in danger, and no more effectively surrounded than he who trifles with the symptoms of kidney disease. And you, reader, know whether or not you are a victim to its insidious encroachment. If your back aches, if your eyesight is failing, if your appetite is feeble, if your urine is not clear, and of a pale, straw color, do not hesitate on the prairie of danger, but flee to the nearest haven of safety, and resort to the only known cure for kidney and liver troubles, Warner's Safe Cure. It is a duty you owe not only to yourself, but to your family and society at large. Delays are dangerous.

Had the traveler not been overtaken in the night, and unarmed, the wolves would have had no terrors for him. We warn you just now, in broad daylight, before the wolves of disease sink their poisoned fangs deeply into your flesh and the night of death settles down upon you, to stop your ears to prejudice and bigotry, and to try to save through the means we have pointed out.

High-Pressure

Living characterizes these modern days. The result is a fearful increase of Brain and Heart Disease—General Debility, Insomnia, Paralysis and Insanity. Cholesterol and Morphia augment the evil. The medicine best adapted to permanent good is Ayer's Sarsaparilla. It purifies, enriches and vitalizes the blood and thus strengthens every function and faculty of the body.

"I have used Ayer's Sarsaparilla in my family for years. I have found it invaluable as a cure."

A Cure

for Nervous Debility caused by an inactive liver and a low state of the blood. "—Herr Bacon, Xenia, Ohio.

"For some time I have been troubled with heart disease. I never found anything to help me until I began using Ayer's Sarsaparilla. I have only used it six months, but it has relieved me from my trouble and enabled me to resume work."

"J. P. Carzanet, Per. J. H. I. I have been a practicing physician for over half a century, and during that time I have never found so powerful and reliable an alterative and blood purifier as Ayer's Sarsaparilla."—Dr. M. Maxstar, Louisville, Ky.

RHEUMATISM.

For More than Twenty-five Years—A Complete Recovery—The Means Used.

I had inflammatory rheumatism. For nearly a year I had to be fed and turned in bed. I could find no relief. My stomach was ruined with powerful medicines taken to effect a cure so that I was compelled to live on bread and water. I suffered for twenty-five years in this way. I was induced to try Dr. Kennedy's Favorite Remedy, made at Rondout, N. Y., and

I Am Now Well,

thanks to his medicine. Dr. Kennedy's Favorite Remedy is my best friend. I am enabled to enjoy a good night's rest, also food, such as meat and pastry, which I have been deprived for years, showing that the Favorite Remedy has no equal for the cure of Indigestion and Dyspepsia as well. If any should doubt this statement, I will send the most perfect proof at once. —GABRIEL LASSING, Troy, N. Y.

It is my pleasure and absolute duty toward those who are struggling for very life against the deadly

Disease of the Kidneys

to add testimony to the wonderful efficacy of Dr. Kennedy's Favorite Remedy. My wife was in a hopeless condition, despaired of by the physicians. Dr. David Kennedy's Favorite Remedy was resorted to; not because any hope was placed in it, but because nothing else remained. The effect was little short of a miracle. With the use of the second bottle, she regained her strength and continuing the treatment has fully recovered. —JAY SWART, Albany, N. Y.

RECIPROCITY DEBATE.

CANADA BELIEVES IN FREEDOM IN PROTECTING ITS OWN INDUSTRIES.

The Border Black with Oklahoma Boomers Who are Anxious to Enter the Promised Land—High License in State of Missouri.

By Telegram to the Freeman.

OTTAWA, April 12.—The Senate at 1:30 A. M. concluded debate on Senator Wark's resolution, to the effect that it would be unjust to the United Kingdom to levy higher duties on goods imported from there, than on goods of the same character imported from any foreign country. Mr. Abbott's amendment was adopted instead by a vote of 36 to 11. The amendment sets forth that it would not be to the interest of Canada to establish entire reciprocity of trade with any foreign nation upon any conditions that would restrict with regard to others the entire freedom of action by this country in protecting its own industries, in dealing with its source of revenue and in regulating its own foreign trade; that would necessitate the adoption of duties discriminating against imports from other nations, and more especially from any other country, while at the same time any measure for securing reciprocity of trade with any foreign country in such of the products of the trade of the country as may be freely interchanged with advantage to both would receive the favorable consideration of this House.

ENDLESS CHAIN OF WARON CARAVANS.

Border Black with Oklahoma Boomers Who are Anxious to Enter Promised Land.

WICHITA, Kans., April 12.—Major Barker arrived here, last night, from Oklahoma, and reports that the soldiers are not equal to the task of keeping the boomers out. They slip into the country and conceal themselves so effectively in the woods that the scouts cannot find them. Every station on the Santa Fe Road is guarded and only those having permits are allowed to go off the trains. The Santa Fe Road has nearly completed the depot at Guthrie, and workmen are engaged on the Land Office building at Purcell. The border is black with boomers awaiting the opening of the country. Many of them are in very destitute circumstances. Every south-bound train arriving here is crowded, and the wagon caravans are passing in an endless chain.

THE MOTHER GUIDING

Her children through the perils of infancy may be compared to a pilot steering a vessel through seas of danger known to him alone. Yet the good woman's anxieties arise from the fear of two being especially serious and fatal. Yet multitudes of mothers now rely upon Dr. Kennedy's Cherry Balm for relief. It is an invaluable auxiliary specific for all these complaints. Containing no harmful ingredients it is wonderfully adapted to relieve the most distressing symptoms according to directions, if necessary in doses large enough to cause vomiting, it relieves Croup in a few minutes. It renders Whooping Cough, while running its usual course, much less wearing on the strength of the child, and is an invaluable auxiliary in the treatment of that dread disease, diphtheria. In fact no home or nursery is properly equipped unless a bottle of the Balm is always on hand. And for the blood, Dr. Kennedy's Favorite Remedy should stand by its side.

A SCRAP OF PAPER SAVES HER LIFE. It was just an ordinary scrap of wrapping paper, but it saved her life. On a piece of wrapping paper she read of Dr. Kennedy's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her, she bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. RHEUMATISM.

For More than Twenty-five Years A Complete Recovery—The Means Used.

I had Inflammatory Rheumatism. For nearly a year I had to be fed and turned in bed. I could find no relief. My stomach was ruined with powerful medicines taken to effect a cure so that I was compelled to live on bread and water. I suffered for twenty-five years in this way. I was induced to try Dr. Kennedy's Favorite Remedy, made at Rondout, N. Y., and

I Am Now Well,

thanks to his medicine. Dr. Kennedy's Favorite Remedy is my best friend. By its use I am enabled to enjoy a good night's rest; also food, such as meat and pastry, which I have been deprived for years, showing that the Favorite Remedy has no equal for the cure of Indigestion and dyspepsia. If you should doubt this statement, I will send the ready proof at once. —GARRETT LANSING, Troy, N. Y.

It is my pleasure and absolute duty toward those who are struggling for very life against the deadly

Disease of the Kidneys

to add testimony to the wonderful efficacy of Dr. Kennedy's Favorite Remedy. My wife was in a hopeless condition, despaired of by the physicians. Dr. Kennedy's Favorite Remedy was resorted to; not because any hope was placed in it, but because nothing else remained. The effect was little short of a miracle. With the use of the second bottle, she regained her strength and continuing the treatment has fully recovered. —JAY SWEET, Albany, N. Y.

RECIPROCITY DEBATE.

CANADA BELIEVES IN FREEDOM IN PROTECTING ITS OWN INDUSTRIES.

The Border Black with Oklahoma Boomers

Who are Anxious to Enter the Promised Land—High License in State of Missouri.

By Telegram to The Freeman.

OTTAWA, April 12.—The Senate at 1:30 A. M. concluded debate on Senator Wark's resolution, to the effect that it would be unjust to the United Kingdom to levy higher duties on goods imported from there, than on goods of the same character imported from any foreign country. Mr. Abbott's amendment was adopted instead by a vote of 36 to 11. The amendment sets forth that it would not be to the interest of Canada to establish entire reciprocity of trade with any foreign nation upon any conditions that would restrict with regard to others the entire freedom of action by this country in protecting its own industries, in dealing with its source of revenue and in regulating its own foreign trade; or that would necessitate the adoption of duties discriminating against imports from other nations, and more especially the United Kingdom, while at the same time any measure for securing reciprocal trade with any foreign country in such of the products of the trade of the country as may be freely interchanged with advantage to both would receive the favorable consideration of this House.

Border Black with Oklahoma Boomers

Anxious to Enter Promised Land.

By Telegram to The Freeman.

WICHITA, Kan., April 12.—Major Barker arrived here, last night, from Oklahoma, and reports that the soldiers are not equal to the task of keeping the boomers out. They slip into the country and conceal themselves so effectively in the woods that the scouts cannot find them. Every station on the Santa Fe Road is guarded and only those having permits are allowed to go off the trains. The Santa Fe Road has nearly completed the depot at Guthrie, and workmen are engaged on the Land Office building at Purcell. The border is black with boomers, awaiting the opening of the country. Many of them are in very destitute circumstances. Every south-bound train arriving here is crowded, and the wagon caravans are passing in an endless chain.

MET DEATH ON THE RAIL.

CONDUCTOR KILLED AT BINNEWATERS THIS MORNING.

Slipped and Fell on the Track, When Several Cars Passed Over His Body—Remains Brought to this City—Coroner Carr Notified.

At about 9:30 o'clock, this forenoon, Joseph Delaney, of this City, was killed on the Walkill Valley Railroad, at Binnewaters, Ulster County. He was a brakeman on freight train No. 22, which left Kingston at 7:45 o'clock this morning. Conductor Cahill had charge of the train. The facts, as learned, of the accident, are as follows:

HOW ACCIDENT OCCURRED.

At Binnewaters a "fly" switch was being made. Delaney, while the train was moving, attempted to pull out a coupling pin. He had placed one of his feet on a "guard," and, slipping, fell between the cars.

WHEN DISCOVERED.

The accident was not discovered until the cars in the rear had passed over the body. The train was then stopped and the remains picked up and placed in a passenger coach. Later on the dead man was brought to Kingston. The cars had run over one of his thighs and one leg, killing him instantly.

CORONER NOTIFIED.

Coroner Carr was notified. He impounded a jury and will hold an inquest to-night.

A TRUSTED EMPLOYEE.

Delaney was a married man. He leaves a wife and two children, who reside on Henry-street, Kingston. He was in the employ of the Walkill Valley Railroad Company for many years, and was regarded as a careful and trustworthy employee. During the summer months he acted as conductor on an extra train. He was about 27 years of age.

It became a mooted question whether the pieces of bark, as told the age of a tree by its bark. Several skilled in woodcraft claimed that they could tell pretty close to the age of a tree by the appearance of the bark, generally from the wrinkles upon it.

IN THE LOCAL FIELD OF EDUCATION.

Large Number of Pupils—Preparing for Commencement Week.

The number of pupils in attendance at Kingston Academy is the largest ever recorded in the spring term in the history of that institution. There are 77 non-resident pupils on register. Only pupils of the higher grades are admitted, so this is considered a large patronage of this class of pupils. The various classes engaged in daily recitation number, in many cases, from 30 to 60. The members of the senior class, which numbers 27, will give a good account of themselves, it is said, during commencement week. As usual a proportion of the class is taking one of the Regents' courses along with one of the courses of the Academy proper, several having already finished the former. Arbor Day will be suitably celebrated by the pupils of the Academy. A programme is now in course of preparation.

DREDGING THE RONDOUT CREEK.

Great Things Are Expected When the Dock is Completed.

The mud-digger of the Delaware & Hudson Canal Company is still at work dredging the bottom of the Rondout Creek, near the "flats," opposite Poughkeepsie, where a dock is to be built for the Company. This morning a pile-driver was taken to the place, and the work of driving piles was begun. The new dock, it is believed, will not only add to the business-like appearance of the entrance to this port, but will be an inducement for large vessels to come here for coal, which are at present laden at other points. It will also furnish employment for a large number of men.

A dispatch from Albany to THE FREEMAN, to-day, stated: Husted's bill for the removal of the State prison at Sing Sing to some more remote quarter of the eastern part of the State passed the Assembly to-day, Flaherty and Crosby alone voting against it. The question at which point the prison should be rebuilt is left to commissioners to be appointed. Sullivan County has been suggested as a good place for it.

What the Penal Code Says in Relation Thereto—Fines.

Since the arrest and sentence of H. A. Follette, who practiced medicine at Phenicia without a diploma, inquiries have been made as to the penalty. Follette is 26 years of age, a man of fine appearance, and apparently a man of intelligence.

THE LATE CAPTAIN SCHOONMAKER.

When a Boy He Exhibited Fondness for the Sea.

On the wall of one of the rooms of the residence of Hon. Marius Schoonmaker, of Kingston, is an old oil painting in a good state of preservation. It is a picture of his two sons, Cornelius Marius and Henry Barnard. The last named died years ago and was the youngest of the two. The picture shows the boy, Cornelius M. engaged in whittling out a vessel. At an early age he exhibited a great fondness for boats, and anything in fact pertaining to a sailor's life. When a boy he made a full rigged sloop. It was quite a model. It was taken by the artist, and was the basis of the picture. The boy was a sailor's son, and his success proved the wisdom of his choice of a profession.

FIVE BEAR CUBS ON EXHIBITION.

Two Were Captured by Boys in the Catskill Mountains.

SUNK IN THE HUDSON RIVER.

THE STEAMBOAT DREW COLLIDES WITH THE SLOOP REVENUE.

The Latter Vessel Disappears From View, But the Captain and Crew Are Saved—Was Bound North With Cargo Of Soft Coal—The Facts.

At about 2 o'clock, this morning, the sloop Revenue, Captain James M. Collyer, of Athens, came in collision with a passenger steamboat, believed to have been the Drew, of the People's line, of Albany, in the Hudson River near Esopus Island. The vessel surged and sank in a few minutes, only the top of its mast being visible above water.

THE CREW RESCUED.

The crew of the sloop, consisting of Captain Collyer, Walter Howland, mate, William Brandow, cook, and Frank Poland and J. Weeks, were rescued by the crew of the steamboat Ansonia, which was bound north, and were taken to Catskill.

THE STEAMBOAT STOPPED.

After the accident the steamboat which had collided with the Revenue, stopped, and after drifting in shore near Dinwiddie's short distance, started up again and proceeded on its way to New York.

LOADED WITH SOFT COAL.

The Revenue was loaded with soft coal, and was on its way to Athens at the time it received the blow that sunk it.

WHAT A PILOT SAID.

A short time before the accident occurred, the pilot of the propeller L. M. North, Timothy Donovan, which boat was on its way from Newburgh to Rondout with a tow, said that he passed a sloop, which he took to be the Revenue, south of Esopus Island. After passing the Island a steamboat, which he believed to have been the Drew, went by, and a few minutes later he saw what he took to be a wreck in the Hudson and lights gleaming from all parts of the steamboat. He looked, but failed to see the sloop he had passed a short time before.

DESCRIPTION OF SUNKEN VESSEL.

The Revenue was built in Bristol, N. Y., in 1851, but had been subsequently rebuilt. It was 69 feet, two inches in length, 24 feet, six inches in breadth, seven feet, one inch depth of hold and was of 85 tons burthen. It was owned by parties in Athens.

THE RECORD OF CITY AMUSEMENTS.

Adams & Cook Company—"Lost in London"—Mrs. Scott Siddons.

Last night in Kingston Opera House, Newton Beers' company presented the spectacular drama "Lost in London," to a fair-sized audience. The play was most acceptable, but the framework of the dramatic scenes are of such an imposing character that the acting—excellent as it was—almost seemed secondary. The play is enlivened with dancing, fine tableaux and good singing. The final scene of "Job's Vision" was beautiful.

The Adams & Cook Dramatic Company is still drawing large audiences in Liscomb's Opera House, Rondout. Last night the play was a dramatization of Rider Haggard's popular novel, "The People of the Mist." It was a good one, and drew from the audience evidences of appreciation. Thomas E. Shea, leading man and star, is an actor of rare ability. His support is above the average. To-night the company will play "The Exile of Erin."

Mrs. Scott-Siddons will give readings in Kingston Opera House, on Monday evening, April 15, for the benefit of the Industrial Home, of this City. Of this gifted lady it has been said: "As an elocutionist she stands at the head. Her voice is strong, yet melodious, and of such perfect training that her lowest tones can be heard distinctly by a large audience. She has achieved special distinction as an interpreter of Shakespeare." Selections from Dickens, Mark Twain and others will also be given. A good orchestra will be attending.

SOME AMUSING THINGS IN COURT.

An Obstinate Juror—A Witness' Description of Monument.

During court when jurymen are sent to a room at the close of a case they are not always of one mind, and sometimes find it tedious waiting to come to an agreement. During the early part of this week a petit jury was out the greater part of the night before they could agree. In the morning the following was found lying on the floor in the jury room:

Eleven of Jurors

Sheriff Dill.

"We ask you to come and take this man by the ear and lead him to the side of right and not in darkness as he is likely to stay. Hoping he will soon come over to the right side we."

Remain Yours
JURORS.

A witness who testified in court was asked to describe a monument in question. His answer was: "It is somewhat similar to that one, only of a different kind."

Sent His Check.

Judge H. A. Gildersleeve, who engaged to deliver a lecture for the benefit of the Sons of Veterans at Poughkeepsie, last evening, could not fill his engagement. The Judge sent his check for \$100 to make up for the disappointment and has agreed to lecture in the fall.

A "RAIL FENCE" THAT CRAWLED AWAY.

Snake Story as Told by an Old Resident of the "Traps."

"The Traps" is the name of a locality on the top of the Shawangunk Mountains, about midway between New-Paltz and Tuletown. It is nearly all rock and covered, as the settlers who live near there say, with "underbrush, huckleberries and snakes." The mountain seems to be split at this point and into the split hunters set traps and game. This is why it is called "The Traps." This forenoon a resident of that delectable neighborhood told the following snake story, which he said he had every reason to believe was true: "About 10 years ago a man named Dan, Hasbrouck, called 'Dan,' was satisfied to go home early. About noon the sun shone out brightly, the wind died away and it was warm like 'Mountain Dan,' after having finished his noon meal, returned to his work. When he reached the spot he found that his fence had disappeared. Not one rail was left. The disappearance of the fence which had been carefully made by him was beyond his comprehension. Going to the spot where he had commenced his work he was startled by the movement of a big black snake. 'There,' said 'Dan,' as he told the story, 'I was hustled, by gosh, if I hadn't laid that fence up with black snakes.' Sure enough, the snakes had been frozen stiff during the night, and 'Dan,' thinking that they were rails, had laid them up just as he would rails. The sun had melted the snow and the sun had warmed them up a bit and they crawled away. 'Dan' said that he measured the snake he killed, and it was eight feet in length. He had an axe with him and it was as long as four lengths of the snake. He reckoned on the whole lot of the blackies must have been from six to 10 feet long and about from three to four inches through."

WORK OF FIERCE FLAMES.

FIRE ON CATHARINE-STREET, RONDOUT, LAST NIGHT.

Several Buildings Destroyed—The Firemen Responded Promptly and Did Excellent Work—Loss and Insurance—Fire in Kingston.

At about 9 o'clock, last night, fire was discovered in a building on Catharine-street, Rondout, used by VanDeusen Brothers as a storehouse and barn. The firemen of the Eastern Department responded promptly. In the building were a number of horses and wagons. These were taken out. About 100 empty kerosene barrels, which were in the barn, quickly ignited and aided in the almost total destruction of the building, together with a number of carboys of acid, cases of fruit jars, casks of paint, etc. Adjoining the VanDeusen building on the west side were three barns—one large one in the front and two smaller ones in the rear, owned by the Olwell estate. These burned like tinder. The large one was totally and the smaller ones partially destroyed. A large brick structure, used by G. L. Wachmeyer as a store-house, adjoining, was in imminent danger. Window shutters on the east side were at one time off fire. The flames licked the walls, but were stream saved the building although it was damaged considerably by water. On the east side of the VanDeusen barn was a building owned by Sahler, Reynolds & Webster. Rufus Roe lived in the front part of the building and the rear part was used as a stable. The fire was saved. The barn was partially destroyed. Roe's furniture, carpets, etc., were damaged by water.

MOVED OUT.

On The Strand a number of families, fearing their buildings would be burned, moved their effects. Sidelwalk for half a block were covered with all descriptions of furniture. The building of Mrs. Trainor, opposite the VanDeusen barn, was flooded with water. It was occupied by L. Merchin. Other families suffered damage by water.

OTHER INSURANCE.

The buildings owned by the Olwell estate are said to be covered by insurance in a New York agency.

EFFICACY OF WATER WORKS.

The locality where the fire occurred is surrounded by a belt of frame buildings, and near by is a large lumber yard. The efficacy of the water works was fully demonstrated, for had not streams been thrown on the fire as promptly as they were, the fire would have spread to these buildings and a much more disastrous conflagration would have taken place.

ANOTHER FIRE.

At about 5 o'clock this morning the firemen in the Western Department were called out. MET DEATH ON THE RAIL.

CONDUCTOR KILLED AT BINNEWATER THIS MORNING.

Slipped and Fell on the Track, When Several Cars Passed Over His Body—Remains Brought to this City—Coroner Carr Notified.

At about 9:30 o'clock, this forenoon, Joseph Delaney, of this city, was killed on the Walkill Valley Railroad, at Binnewater, Ulster County. He was a brakeman on freight train No. 22, which left Kingston at 7:45 o'clock this morning. Conductor Cahill had charge of the train. The facts, as learned, of the accident, are as follows:

HOW ACCIDENT OCCURRED.
At Binnewater a "fly" switch was being made. Delaney, while the train was moving, attempted to pull out a coupling pin. He had placed one of his feet on a "guard," and, slipping, fell between the cars.

WHEN DISCOVERED.
The accident was not discovered until the cars in the rear had passed over him. The train was then stopped and the remains picked up and placed in a passenger coach. Later on the dead man was brought to Kingston. The cars had run over his legs and thighs and one leg, killing him instantly.

CORONER NOTIFIED.
Coroner Carr was notified. He impounded a jury and will hold an inquest to-night.

A TRUSTED EMPLOYEE.
Delaney was a married man. He leaves a wife and two children, who reside on Henry street, Kingston. He was in the employ of the Walkill Valley Railroad Company for many years, and was regarded as a careful and trustworthy employee. During the summer months he acted as conductor on an extra train. He was about 27 years of age.

IN THE ULSTER CIRCUIT COURT.

Cases on the Short Calendar That Have Been Disposed Of.

In Ulster Circuit Court at session at the Court House, Kingston, the case of James Donovan vs. Hiram Whitney, occupied the greater portion of the day.

This forenoon several cases on the short case calendar were disposed of as follows: No. 106, Stock & Rice vs. Carlton H. Betts. Action on a note given for furniture purchased by said Betts. No defense. Judgment for plaintiffs for \$807.47.

No. 183, James DeGraff vs. Carlton H. Betts. Action to recover for drugs and oils sold by DeGraff, a business man of Highland, to said Betts. No defense. Judgment for plaintiff, \$157.52.

No. 180, George Saxon vs. C. H. Betts. No defense. Judgment for plaintiff, \$225.02.

A MOTED QUESTION.

During the trial of the Shandaken land case pieces of bark and wood taken from trees along the line to show the surveyor's marks, were exhibited to the jury. It became a mooted question whether the person could tell the age of a tree by its bark. Several skilled in woodcraft claimed that they could tell pretty close to the age of a tree by the appearance of the bark, generally from the wrinkles upon it.

IN THE LOCAL FIELD OF EDUCATION.

Large Number of Pupils—Preparing for Commencement Week.

The number of pupils in attendance at Kingston Academy is the largest ever recorded in the spring term in the history of that institution. There are 77 non-resident pupils on register. Only pupils of the higher grades are admitted, so this is considered a large patronage of this class of pupils. The various classes engaged in daily recitation number, in many cases, from 30 to 60. The members of the senior class, which numbers 27, will give a good account of themselves, it is said, during commencement week. As usual a proportion of the class is taking one of the Regents' courses along with one of the courses of the Academy proper, several having already finished the former. Arbor Day will be celebrated by the pupils of the Academy. A programme is now in course of preparation.

DREDGING THE RONDOUT CREEK.

Great Things Are Expected When the Dock is Completed.

The mud-digger of the Delaware & Hudson Canal Company is at work dredging the bottom of the Rondout Creek, near the "flats," opposite Poughkeepsie, where a dock is to be built for the Company. This morning a pile-driver was taken to the place, and the work of driving piles was begun. The new dock, it is believed, will not only add to the business-like appearance of the entrance to this port, but will be an inducement for large vessels to come here, for coal, which are at present laden at other points. It will also furnish employment for a large number of men.

Flaherty and Crosby alone voted against the bill. The question at which place the prison is to be rebuilt is left to commissioners to be appointed. Sullivan County has been suggested as a good place for it.

PRACTICED WITHOUT A DIPLOMA.

What the Penal Code Says in Relation to the Practice of Medicine.

Since the arrest and sentence of H. A. Phollette, who practiced medicine at Poughkeepsie without a diploma, inquiries have been made as to the penalty. The Penal Code says: "A person who practices, or attempts to practice medicine or surgery in this State, unless authorized to do so by a license or diploma from some chartered school, State Board of Medical Examiners or Medical Society, or who practices under cover of a license or diploma illegally or fraudulently obtained, is guilty of a misdemeanor, punishable for the first offense by a fine of not less than \$50 nor more than \$200, and for any subsequent offense, by a fine of not less than \$100 or more than \$500, or by imprisonment for not less than 30 days, or by both such imprisonment and fine."

Judge Mayham told the young man that he would give him the lowest sentence, and hoped it would be a lesson to him, and in the end he would be wiser than he was. Phollette is 26 years of age, a man of fine appearance, and apparently a man of intelligence.

It will be rolled solid, and then it is expected it will be in good condition for trotting purposes. During the winter several stretches of fence were blown down. Work has been commenced to repair the same.

THE LATE CAPTAIN SCHOONMAKER.

When a Boy He Exhibited Fondness for Boats—Oil Painting.

On the wall of one of the rooms of the residence of Hon. Marius Schoonmaker, of Kingston, is an old oil painting in a good state of preservation. It is a picture of his two sons, Cornelius Marius and Henry Barnard. The last named died some years ago and was the youngest of the two. The picture shows the boy Cornelius M. engaged in whittling out a vessel. At an early age he exhibited a great fondness for boats, and anything in fact pertaining to a sailor's life. When a boy he made a full rigged ship. It was his model. It was taken to a country fair and won a prize. It was because of this passion for a sailor's life, that he was given a naval education, and his success proved the wisdom of his choice of a profession.

Two Were Captured by Boys in the Catskill Mountains.

The two bear cubs captured by boys named Dyer and Neise in the Catskill Mountains, near Phoenicia, recently, have been purchased by William DuBois, proprietor of the Big Indian Hotel. DuBois now has five young bears. Three are each a year old, while the two cubs lately purchased are only about a month old each. Bears are an attraction for summer boarders in the Catskills. Last summer, it is said, hundreds of people called at DuBois' house to see the cubs. It is rumored that DuBois has had an offer from Barnum & Bailey to exhibit his bears with their circus.

SUNK IN THE HUDSON RIVER.

THE STEAMBOAT DREW COLLIDES WITH THE SLOOP REVENUE.

The Latter Vessel Disappears From View, But the Captain and Crew Are Saved—Was Bound North With Cargo Of Soft Coal—The Facts.

At about 2 o'clock, this morning, the sloop Revenue, Captain James M. Collyer, of Athens, came in collision with a passenger steambot, believed to have been the Drew, of the People's line, of Albany, in the Hudson River near Esopus Island. The vessel surged and sank in a few minutes, only the top of its mast being visible above water.

THE CREW RESCUED.

The crew of the sloop, consisting of Captain Collyer, Walter Howland, mate, William Broadway, cook, and Frank Poland and J. Weeks, were rescued by the crew of the steambot Ansonia, which was bound north, and were taken to Catskill.

THE STEAMBOAT STOPPED.

After the accident the steambot which had collided with the Revenue, stopped, and after drifting in shore near New Kingston's short distance, started up again and proceeded on its way to New York.

LOADED WITH SOFT COAL.

The Revenue was loaded with soft coal, and was on its way to Athens at the time it received the blow that sunk it.

WHAT A PILOT SAW.

A short time before the accident occurred, the pilot of the Revenue, J. Dan, Timothy Donovan, which boat was on its way from Newburgh to Rondout with a tow, said that he passed a sloop, which he took to be the Revenue, south of Esopus Island. The sloop was passing a short distance from the shore, and he believed to have been the Drew, went by, and a few minutes later he saw what he took to be a wreck in the Hudson and lights gleaming from all parts of the steambot. He looked, but failed to see the sloop he had passed a short time before.

DESCRIPTION OF SUNKEN VESSEL.

The Revenue was built in Bristol, N. Y., in 1851, but had been subsequently rebuilt. It was 60 feet, two inches long, 24 feet six inches in breadth, seven feet, one inch depth of hold and was of 85 tons burthen. It was owned by parties in Athens.

Before leaving, the good man said he would be glad to unite with the family in prayer in the evening.

THE RECORD OF CITY AMUSEMENTS.

Adams & Cook's "Lost in London."

Last night in Kingston Opera House, Newton Beers' company presented the spectacular drama "Lost in London," to a fair-sized audience. The play was most acceptable, but the framework of the dramatic action was such an imposition upon the acting—excellent as it was—almost seemed secondary. The play is enlivened with dancing, fine tableaux and good singing. The final scene of "Job's Vision" was beautiful.

The Adams & Cook Dramatic Company are still drawing large audiences in Liscomb's Opera House, Rondout. Last night the play was a dramatization of Rider Haggard's popular story, "She." Sad Day at Consville.

(From the Glendon Monitor.)

Last Friday was a sad day at Madison Richtmyre's, at Consville, for "Kik," the horse that he had bought just before his marriage 21 years ago, lost the use of his limbs, and as the neighbors knew it, so well none of them could be hired to kill it. By going out of the neighborhood he found a person to perform the deed, but the family forgot the Friday evening prayer meeting.

A "RAIL FENCE" THAT CRAWLED AWAY.

Snake Story as Told by an Old Resident of "The Traps."

"The Traps" is the name of a locality on the top of the Shawangunk Mountains, about midway between New Paltz and Tulettown.

It is nearly all rock and covered, as the settlers who live near there say, with "underbrush, huckleberries and snakes." The mountain seems to be split at this point and into the split hunters set traps for game. This is why it is called "The Traps."

This forenoon a resident of that delectable neighborhood told the following snake story, which he said he had every reason to believe was true: "About 10 years ago a man named Daniel Hasbrouck, called by his neighbors 'Mountain Dan Hasbrouck,' owned a farm which took in a part of the mountain where 'The Traps' are. One forenoon he started out to build a piece of rail fence. He had eight feet in length. He had an ax with him and it was as long as four lengths or the handle. I reckon the whole lot of the blacksies must have been from six to 10 feet long and about from three to four inches through."

He had been carefully made by him as beyond his comprehension. Going to the spot where he had commenced his work he was started by the movement of a black snake. He looked, but failed to see the snake, which he believed to have been the Drew, went by, and a few minutes later he saw what he took to be a wreck in the Hudson and lights gleaming from all parts of the steambot. He looked, but failed to see the sloop he had passed a short time before.

NOTES ON NEWS OF THE DAY.

REMONS of an attempt upon the life of the
Czar last Sunday, were current in Paris and
Bucharest yesterday. He was said to have
been wounded by an exploding shell. The
story has not been confirmed.

ANTHONY COMSTOCK has detected David
Blair, Postmaster at Broadalbin, Fulton coun-
ty, in receiving and forwarding letters to the
"green goods" swindlers of New York.
With all his fame for speed, Mr. Wamaker
is not turning the rascals out fast enough.

It is settled that President Harrison and
wife will be the guests of Vice-President
Morton at the New York residence during
the centennial celebration, and after that will
come to Ellerslie for a few days' rest. This
is the only vacation that the President has
planned.

In the little town of Palmyra, Nebraska,
Bibles are so scarce that the local newspaper
published last week the Ten Commandments
as a piece of news. It is evident that the
newspaper has gone ahead of the missionary
and colporteur in Eastern Nebraska, and is
doing their work.

SALZMAN, the Swede emigrant who beat
Mrs. Mutter to death at Irvington, N. J., a
few weeks ago while her husband was absent
on his milk route, was captured near Barne-
gat last night and locked up in jail at New-
ark. He is a first-class subject for Jersey
justice to try a rope upon.

The Secretary of the Treasury is getting
all the 44 per cent bonds that he wants at 8
per cent premium, and the extinguishment of
the public debt is proceeding at a very satis-
factory rate. The substitution of a statesman
for a bookkeeper at the head of the Treasury
Department is producing good results already.

JUDGE THURMAN is again in Washington.
He walks about with the assistance of his son
and a cane, and is very feeble. The cam-
paign of last year had told severely upon him.
A society for the prevention of cruelty to old
men should be organized before the next
Democratic National Convention meets.

The Albany schools are to celebrate the
Washington Centennial with appropriate lit-
erary exercises, consisting of patriotic music,
quotations, compositions and readings. The
opportunity to teach patriotism to the chil-
dren of the nation should not be lost. If this
had been made a branch of universal educa-
tion we should have had no rebellion.

The lower house of the Illinois Legislature
has prepared a bill to make the Illinois and
Michigan canal a ship canal to its connection
with the Illinois river, and to widen that
river to its mouth. This will give ship na-
vigation between Lake Michigan and the Mis-
sissippi river, and afford Chicago an outlet for
its sewage.

The business of marrying by proxy is pro-
ceeding with great energy in the Mormon
church. A friend stands for the husband,
thus making these marriages difficult to
prove, though they are binding under the
Mormon law. Gentiles seldom adopt this
method, the only instance on record being that
of Miss Van Zandt and the Anarchist Spies.

A LETTER from one of the half-breeds of the
Lonsdale exploring party states that the
noble Lord never went within the limits of
the Arctic circle at all, but traveled and suf-
fered by proxy. All of the time of his ab-
sence was spent within the limits of civilization,
principally in Alaska and the region
around Mackenzie's bay. His example is to
be commended to all Arctic explorers. The
whole business has been and is a grand hum-
bug, and should be left to semi-royal fakirs
like Lonsdale.

The man who caused Russell Harrison's
arrest for libel has undoubtedly an itching for
notoriety. He could have received the same
correction and apology from the paper of
which Mr. Harrison was President that he ac-
cepted from the Buffalo paper that published
the original libel, but he insisted upon a per-
sonal apology from Harrison himself, which
would have been an admission of responsibility
that the facts do not warrant. There can-
not be impounded a jury of twelve men in the
United States who would give Gov. Crosby a
verdict under the circumstances.

At Allegan, Mich., last Monday night, a
man named Hurlburt, who had frequently
whipped his wife, was taken from his
house by a half-dozen women and thrashed
unmercifully with hickory switches. A
young woman living in Hurlburt's house was
notified to leave on pain of similar treatment.
She stood not on the order of her going. The
wife is understood to have endured the ex-
ecution very well. She exhibited much more
sense than the woman in Indiana who
threatened to shoot some white caps who had
come to whip her husband because he had
whipped her.

The Methodist Book Concern is one of the
most profitable business enterprises in the
country. At the Northern New York Con-
ference in Lowell yesterday a report of the
business of the past year, just received from
the management in New York, was read.
The net sales had been over \$1,000,000 and
the profits \$135,000. A regular dividend of
\$50,000 had been declared, and also a special
centennial dividend of \$50,000 to the annual
conferences. A new building to cost \$1,000-
000, is now being erected for the Concern. It
has been well earned.

KEPLER's saloon at Oakland, Ind., has
been closed through the persistence of some
temperance ladies. They first set a watch on
the outside of the saloon and took the names
of all the men who visited it, but these men
refused to swear before the grand jury that
they were customers, and no indictment was
returned. Then the ladies organized them-
selves into committees, and took turns at sit-
ting inside of the saloon and taking the names
of purchasers of drinks. Persecution could
not drive these reformers out, though one gal-
lant customer put a skunk under a lady's
chair and caused her to faint. The saloon is
now closed and several indictments have been
found against the proprietor.

SAW MILL SAFE IN CANADA.

DANISH STEAMER DANMARK WRECKED.
When Seen Its Stern was Level with the
Sea and Bow Out of Water.

QUEENSTOWN, April 12.—The Imman Line
steamer City of Chester from New-York, ar-
rived here at 10 o'clock. It reports that on April 8, in
latitude 46 N., longitude 62 W., it passed the
Danish steamer Danmark from Christiana
and Copenhagen for New-York. The Dan-
mark had been abandoned by its crew. The
stern was level with the sea and its bow stood
high out of the water. It was apparently
sinking. The Danmark was a vessel of 2,300
tons, and belonged to the Thingvalia Line. It
was commanded by Captain Knudsen.

New-York, April 12.—The steamer Dan-
mark was abandoned about 600 miles off the
Irish coast. The crew and passengers num-
bered 750 persons.

There is great excitement here over the
abandonment of the vessel. The Thingvalia
Line is probably the largest carrying immi-
grant line that plies between this port and
Europe. The Danmark had on board, when it
left Christiana, 650 passengers, presumably
all immigrants. The crew numbered 40
men. The office of the agents of the steamer,
French, Edye & Company, has been thronged
with people all day anxiously inquiring for
later news of the vessel. The agents as yet
have no news to give them.

The Danmark was formerly the Belgian
steamer Jan Breydel. It was a bark-rigged
vessel, and was 340 feet long, 45 feet in
breadth, and 26 feet deep. It was built at
New-Castle, England, in 1880.

The steamer Iceland, of the Thingvalia
Line, which left Copenhagen four days later
than the Danmark and is due here to-morrow,
will probably bring some intelligence of the
disaster.

SIR C. RUSSELL CONGRATULATED
By Telegram to The Freeman.

By Telegram to The Freeman.

LONDON, April 12.—Sir Charles Russell to-
day concluded his speech before the Parnell
Commission in defense of the Parnells. He
undertook to show that the money Parnell
gave Byrne which the prosecution alleged was
given for the purpose of enabling Byrne to
escape, was meant by Parnell to be used for
the ordinary purposes of the National
League, and that Parnell did not know
Byrne was in peril of arrest. There was a
sensation when Sir Charles concluded his
speech. "The Court," Sir Charles said,
"was trying the history of the Irish revolution."
He asked that fair and generous con-
sideration be given it. If prosperity was
returning to Ireland, thanks be to God, but
affairs were unsteady in that country, where
the people considered the imprisoned mem-
bers of the House of Commons heroes and
martyrs. Sir Charles declared he did not
speak merely as the advocate of the accused
members of the House of Commons, but as
the friend of his birth, and he believed, in the
best interests of England. The inquiry,
which was intended to be a curse, had been
a blessing. It had been designed for the pur-
pose of ruining one man but had proved the
means of his vindication. When Sir Charles
finished his speech, Justice Hannen passed the
note to him in which he said: "I congratulate
you. Your speech was a great one and
worthy of a great occasion."

The Court adjourned until April 30.

The Archbishops of Dublin and Cashel
will be among the witnesses who will testify
for the defense.

By Telegram to The Freeman.

PARIS, April 12.—When the Senate met
to-day the President read the decree consti-
tuting that body a tribunal for the trial of
General Boulanger. Count Dillon and Henri
Rochefort. The Procureur General, Que-
nay De Beaurepaire, read a statement setting
forth the grounds upon which the prosecu-
tion of the accused is based. The Senate
went into secret session and the public
was excluded. The trial of Gen-
eral Boulanger and his associates was then
formally begun. The Senators had been re-
quested to appear in evening dress for the oc-
casion. This request was ignored by the
members of the Right, all of whom wore
frock coats. The members of the Left were
dressed in evening dress and wore white cravats.

A POINTER.

As every reader of this paper knows, it has
become one of the most reliable to write attractive
and interesting advertisements—especially
medical ones.

Now it seems to us that if, for instance, the
world-wide advertisers of Warner's Safe Rem-
edies would adopt a style whereby they could
work in a startling story of say—wolves, we
believe the immense sales of their medicines
could be still more largely increased. We
give them the benefit of the idea at any event.
Let it commence like this:

Patter! Patter! Patter!
There it is again. It is not fifty yards from
where he last halted. The steps are too light
for those of an Indian. A grizzly would rush
upon its victim with a roar of defiance and
anger. A panther would hurl himself through
thirty feet of space, with a scream to unnerve
the hardest hunter. "Wolves," whispers
the hunter, as a low suddenly bursts upon his
ear.

Wolves! the gaunt, grizzly wolves of the
foot-hills—thin and poor and hungry and sav-
age—their legs tireless—their mouth full of teeth
which can crack the shoulder-bone of a bull-
falo. He can see their dark forms flitting
from point to point—the patter of their feet
upon the parched grass proves that he is sur-
rounded—yet no more in danger, and no more
effectually surrounded than he who tri-
bles with the symptoms of kidney disease.

And you, reader, know whether or
not you are a victim to its in-
sidious encroachment. If your back aches,
if your eyesight is failing, if your appetite is
fickle, if your urine is not clear, and of a pale
straw color, do not hesitate on the prairie of
danger, but flee to the nearest haven of safe-
ty, and resort to the only known cure for
kidney and liver troubles, Warner's Safe
Cure. It is a duty you owe not only to your
self, but to your family and society at large.

Delays are dangerous.

The traveler who has been overtaken in the
night, and unarmed, the wolves would have
had no terrors for him. We warn you just
now, in broad daylight, before the wolves of
disease sink their poisoned fangs deeply into
your flesh and the night of death settles down
upon you, to stop your ears to prejudice and
bigotry, and to step by step safety through the
means we have pointed out.

GOV. HILL AND BALLOT REFORM.

Gov. Hill has succeeded in dragging out all of the Democratic members of Assembly into opposing the Saxton electoral reform bill, though there were eleven Democratic votes cast for it last year, namely those of Messrs. Bagley, Bush, Cashow, Defendorf, Greene, Magner, Martin, O'Reilly, Rosch, Rosenthal and Weidner. Bush, Greene, Martin and Rosch are back in the Assembly this year, but they did not dare to vote for the bill, though it had been modified to meet all the objections presented by the Governor in his veto message last year. The Governor has discovered the necessity of presenting a solid Democratic front in the Legislature this year, in justification of the veto that is to leave unaltered all the well known resources of Democratic fraud.

And yet the Governor is doing the very thing that is quite likely to involve his political suicide. The Saxton bill is not a Republican invention or any sort of a partisan device. It was imported to this country from Australia, where it has borne the test of thorough and impartial experiment. When laid before the people of the United States, Republicans and Democrats alike pronounced it good. The Indiana Legislature, as Democratic in its aims and sympathies as Gov. Hill himself, passed it, and a Republican Governor signed it. The New Jersey Legislature, so intensely Democratic that it has tried to exterminate the Republican party by every species of gerrymander that could promise a possibility of Democratic advantage, and has emasculated the high license law, adopted the Australian plan, and a Democratic Governor signed it. In Tennessee and Kentucky it was also adopted by Democratic Legislatures, and approved by Democratic Governors. In the Republican States of Wisconsin and Rhode Island it was passed with cordial Democratic approval. These facts indicate that there is a very large proportion of the party that does not agree with Gov. Hill, and is likely to take issue with him on what is evidently regarded as one of the most vital questions of the time. And those Democrats who see in the measure the most direct way of striking down fraud at the polls, so demoralizing to their party and promotive of misgovernment, are already declaring their suspicion that David B. Hill has some dishonest purpose—some expectation of gain through the perpetration of dishonesty at elections. This is the accusation that is being poured upon him in full chorus by the Democratic newspapers of the West. He has done nothing in all his rather sinuous political career that has disturbed Democratic confidence in his integrity of purpose like this opposition to the only measure that gives a sure guarantee of honest elections. The Philadelphia Record, the most largely circulated and influential Democratic journal north of Mason and Dixon's line, takes this view of the Governor's conduct. "In New York," it says, "the Democrats, under the lead of Governor Hill, insist upon a measure of ballot reform that would preserve the control of the 'machine' and would not be a ballot reform at all. The Saxton bill, passed by the Republican Legislature, is not altogether satisfactory, but it is a great advance in the right direction." Further on in the same article it says that "the only reason for delay" in passing the Australian law, "is the havoc that is threatened for professional politics. There will be no further excuse for the 'machine' when the useful purposes that it subserved shall have been otherwise provided for, and only its evil potencies remain."

The Governor is quite likely to dig his own political grave with the pen that vetoes the Saxton bill. There is no great and rich private interest banding together for profit through election frauds, like that which he found at his back when he vetoed the high license bill. He represents in this opposition only himself and the little band of politicians who feel their duty to sneeze when he takes snuff. Perhaps after he has received a few more thrashings like those administered to him at Cohoes, West Troy and Menands last week, he will be glad to invoke the protection of the Australian system. If he had signed the bill last year, D. Cadogan Herrick would have been bereft of the power to humiliate him.

HARMONY IN ALBANY.

The two Republican papers of Albany deplore the failure of their party to capture the Albany county Board of Supervisors, which ought to have been gained through the assistance of Cohoes, which scored a sweeping Republican victory. They attribute the failure to the perpetuation of the quarrel between the Republican factions in Albany city. The aforementioned papers are doing their utmost to bring the combatants into harmony. They have recently come under one ownership, and in order to prevent as far as possible any future collision from the sheer force of habit, one man has been made managing editor of both. It is believed that he will be restrained from the exhibition of belligerence in the morning issue, by the reflection that it would be his duty in the afternoon to go over to the office of the evening edition and exterminate himself. So a very desirable condition of harmony has been fulfilled. There is only one ground for uneasiness over this arrangement. The managing editor in the morning is likely to find himself so exhausted in restraining the belligerence of the editor in the afternoon, that he will be in no condition to fight the common enemy.

But this is not a matter of much account at present. The opportunity is favorable for the two-folded Republican papers to take a respite from their mutual enmity. Let them stand back and see the Democrats pummel each other. A war of words is a very tame affair comparatively, and can be suspended with safety to all Republican interests, when a war of clubs, brickbats and pistols is going on in the Democratic camp. Since heads are to be broken in Albany political circles, it is satisfactory that they are Democratic heads. There is infinitely more fun in the present aspect of the fight to the Republican who stands on the outside of the ring and looks on and laughs, than to the Democrat who wades in and dies. The lesson may also teach the folly of Republican factionalism, which never conquers anything because it is not handy with the Democratic bludgeon. Many an old feud has

been settled in an amicable spirit and with enduring forgiveness in the rear ranks of a fraternal procession. The best conditions for bringing about Republican harmony begin, when newspapers consolidate, but when Democrats fight as they only can fight. When Murphy and Herrick put on their war paint, and Democratic eyes, ears and noses begin to cover the ground, the ambition of a Republican factionist for a few scraps from the other side suddenly gives way to a feeling of serenity and peace, and he shakes hands with his old enemy across the bloody chasm.

The Herrick-Murphy fight can go on. The champions of Cleveland and Hill can continue to despoil each other. These processes are a revelation to the Republicans that victory is coming so near that they can grasp it. And looking back on the past, they are likely to feel contempt for themselves that they have feigned to fight at all. The Democratic shock of battle makes them ashamed of their own puny and harmless contentions, in which not even a handful of hair has been sacrificed or a nose distorted.

A NEW SECT.

A novelty in religious sectarianism is likely to result in Hoboken from the forced retirement of Rev. John Freund from the pastorate of the German Evangelical Church in that city. Mr. Freund was active in pastoral visitation, but showed such marked preference for those of his brethren who kept their saloons that the rest of the membership became jealous. They insisted that he must cease his visits to the saloons. He answered that he was a German long before he became a Christian, and that a glass of beer had been to him always a source of spiritual consolation and inspiration. But the temperance "fanatics" were in the majority, a startling refutation of the claim that the German cannot be a good citizen without out his beer, and would soon cease to exist. There is a good deal of political as well as religious significance in this disclosure. It suggests that the Democratic party has been wasting its lung power in defense of that principle of "personal liberty" which insists that the highest right of man is the right everywhere and always to get drunk and make a hog of himself. When this fundamental doctrine of Democracy is proved to be illusory, the earth will slip from beneath its feet.

But the minority of the Hoboken German Evangelical Church, the saloon keepers, are sore over the loss of their pastor, and trembling lest there shall be some backsliding among them into the ways of sin. So they have determined to dissolve fellowship with those who refuse to mix beer with their religion and found a new church of which Rev. Mr. Freund shall be the pastor. From his pulpit he will expound the gospel of beer. In his pastoral visitations he will console the afflicted, cheer the weary and overburdened, and strengthen the weak and tempted ones by filling them with beer, even to overflowing.

We have read in some of the eulogies of David B. Hill that he was a deeply religious man, though not a member of any denomination. He had found his faith but not a church to fit it. Let us remind the Governor that there is rising in Hoboken an institution more orthodox than any that he ever dreamed of, and sure to fill the aching void in his heart. And when the church of St. Gambrinus is firmly established, with financial resources sufficient to make it a desirable field for men of high ability to enter in and labor, then David B. Hill, D. D., freed from the anxieties and vexations of political life, and yielding to the impulses of his "deeply religious" nature, shall be the Bishop.

ENGLISH HEROISM.

Sixty Constables in Ireland—They Gallantly Vanquish a Few Women and Children. (Special to the New York Sun.)
LONDON, April 11.—Your correspondent telegraphs from Dublin that the constables on the Ophelt estate have passed off without bloodshed, thanks to the utter helplessness of the tenants. The police, having ascertained that the houses had not been fortified, left the butting ram and the bulk of their military and civil forces in reserve in the village. Only sixty constables accompanied the Sheriff and his men throughout the distressing day. The chief danger was incurred by some young Englishmen, mostly undergraduates from Oxford University, whose indignation more than once threatened to bring them into collision with the police.

The houses visited were grouped together, rendering easier the work of the cowering brigade. In some instances a feeble attempt at barricading had been made, but there were no elaborate fortifications, and the fierce defense which at the end of last year was described in the Sun. The tenants of the first two houses found themselves on the roadside within a half hour of attack. At the third house the painful monotony of the proceedings was varied by a vigorous attack made upon the Sheriff by the tenant's wife who, despite the incumbrance of a seven-week-old child in her arms, belabored the minion of the law with a stick until a policeman came to the rescue. The poor woman retreated inside and clung tenaciously to a bedpost whence she was brutally torn by two burly bailiffs, the baby being almost killed in the struggle. Patrick O'Brien, M. P., at the risk of being sent to prison for another long term for obstructing the police, rescued the infant and held it to his breast. The mother, however, at the fourth house the bailiffs turned out a bed-ridden old dame despite indignant protests that the exposure would kill her. Real resistance was offered only at the last two houses visited, but the defenses were so feeble that they were soon broken down, and the garrisons, consisting of all told of one man and ten women, were sent off to prison. Fourteen out of seventy families were evicted to-day.

The New Democratic Decalogue.

1. Thou shalt not succeed.
2. Thou shalt not have a father who amounts to anything.
3. Thou shalt not have any ballot reform.
4. Thou shalt not raise any liquor licenses, nor close any liquor saloons, nor stop liquor dealers from selling liquor to minors, habit-drunkards, and to everybody on the Sabbath.
5. Thou shalt not revise the tariff, unless thou revise it in our way, so as to make less tariff.
6. Thou shalt not touch the internal revenue.
7. Thou shalt not forbid intimidation and bribery at elections, or suffer any son of Ham to vote unless he votes the right ticket.
8. Thou shalt not pension the blind, the lame and the halt old soldier; neither shalt thou provide for the soldier's widow nor the fatherless thereof.
9. Thou shalt not have any navy nor coast defenses.
10. Thou shalt abuse thyself before other nations; they shall prey upon thee and divide the spoils, and thou shalt go into a hole and pull the hair out there.

Ballot Reform in New York.
(From the Philadelphia Times, Dem.)

The New York Assembly, following the lead of the Legislatures of Massachusetts, Indiana, Montana, Rhode Island, Wisconsin and Tennessee, has passed the Australian ballot law. The vote upon the bill was divided upon strict party lines, the Republicans all voting for it and the Democrats against it. Unfortunately this foreshadows a veto of the bill by Governor Hill, who seems to be possessed of the notion that an honest ballot

law would reduce the Democratic vote in New York. It is to be regretted that a good law should be nullified for a strictly partisan reason, but Governor Hill is nothing if not partisan.

If the Republicans of the Pennsylvania Legislature should follow the lead of their New York brethren and pass the bill now pending in that body on the same subject, it would not be defeated for want of a Republican Governor to sign it.

SPECIAL BUSINESS NOTICES.

My boy (three years old) was recently taken with cold in the head. It seemed difficult to settle in his nose, which was stopped up for days and nights so that it was difficult for him to breathe and sleep. I called a physician, who prescribed, but did not work too good. Finally I went to the drug store and got a bottle of Ely's Cream Balm. It seemed to work like magic. The boy's nose was clear in two days, and he has been all right ever since.—E. J. Hazard, New-York.

WHAT A THOUGHTFUL WIFE DID.

She induced me to try Dr. David Kennedy's Favorite Remedy, (much as I hate to try a new remedy) and after two weeks' trial I was completely cured of my chronic biliousness, and my general health improved. I tried other preparations without any benefit. Thanks are due my wife and Dr. David Kennedy's Favorite Remedy.—Thomas G. Spencer, 161 Twelfth Street, South Brooklyn, N. Y.

The proprietors of Dr. Sage's Catarrh Remedy reward for a case of Catarrh which they cannot cure. Remedy sold by druggists at 50 cents.

ARRESTED 131 TIMES.
Not long ago a man was before a New-York Judge who asserted he had been arrested 131 times. We believe there is no other member of society who has broken this record. We refer to the malicious disease consumption, which, when taken in time, is always cured by Dr. J. C. Foster's Golden Medical Discovery. It has an unparalleled record as a cure for coughs, colds, and all forms of pulmonary diseases. It is a reliable tonic and alterative, or blood-purifier, to be found at every drug store, and should be kept in every house.

DON'T GET CAUGHT.
This spring with your blood full of impurities, your digestion impaired, your appetite poor, kidneys and liver torpid, and when you are liable to be troubled by disease—but get yourself into good condition, and ready for the changing and warmer weather, by taking Hood's Sarsaparilla. It stands unequalled for purifying the blood, giving appetite, and for a general spring medicine.

If you had taken two of Carter's Little Liver Pills before retiring you would not have had that coated tongue and the "bad" taste in the mouth this morning. Keep a vial with you for occasional use.

Hop Plaster—the only original and infallible pain-killing plaster, soothes, stimulates, strengthens.

The most significant and successful blood purifier. Superior to quinine.

"After five years suffering from malaria, which nearly destroyed my constitution, having used quinine without permanent benefit I tried Kaskine and got better right away. The malarial fever, pink all left me, and health, sleep and strength returned. I had all the symptoms of malaria poisoning: headaches, rheumatic pains, great nervous depression, loss of sleep, etc. The Kaskine medicine, proving useless I tried 'the new quinine' and soon got better. High-Pressure

Living characterizes these modern days. The result is a fearful increase of Brain and Heart Disease—General Debility, Insomnia, Paralysis and Insanity. Chloral and Morphine augment the evil. The medicine best adapted to permanent good is Ayer's Sarsaparilla. It purifies, enriches and vitalizes the blood and thus strengthens every function and activity of the body.

For More than Twenty-five Years—A Complete Recovery—The Means Used.

I had Inflammatory Rheumatism. For nearly a year I had to be fed and turned in bed. I could find no relief. I was induced to try Dr. Kennedy's Favorite Remedy, made at Rondout, N. Y., and

I Am Now Well,

thanks to his medicine. Dr. Kennedy's Favorite Remedy is my best friend. By its use I am enabled to enjoy a good night's rest; also food, such as meat and pastry, which I have been deprived for years, showing that the Favorite Remedy has no equal for the cure of Indigestion and Dyspepsia. If, any should doubt this statement, I will send the ready proof at once.—GARRITT LASSING, Troy, N. Y.

It is my pleasure and absolute duty toward those who are struggling for very life against the deadly

to add testimony to the wonderful efficacy of Dr. Kennedy's Favorite Remedy. My wife was in a hopeless condition, despairing of by the physicians. Dr. David Kennedy's Favorite Remedy was resorted to; not because any hope was placed in it, but because nothing else remained. The effect was little short of a miracle. With the use of the second bottle, she regained her strength and continuing the treatment has fully recovered.—JAY SWEET, Albany, N. Y.

RECIPROCITY DEBATE.

CANADA BELIEVES IN FREEDOM IN PRO-

TECTING ITS OWN INDUSTRIES.

The Border Black with Oklahoma Boomers Who are Anxious to Enter the Promised Land—High License in State of Missouri.

By Telegram to The Freeman.

OTTAWA, April 12.—The Senate at 1:30

A. M. concluded debate on Senator Wark's resolu-

tion, to the effect that it would be unjust to the

United Kingdom to levy higher duties on

goods imported from there, than on goods of

the same character imported from any for-

eign country. Mr. Abbott's amendment was

adopted instead by a vote of 36 to 11. The

amendment sets forth that it would not be to

the interest of Canada to establish entire re-

ciprocity of trade with any foreign nation

upon any conditions that would restrict

with regard to others the entire freedom of

action by this country in protecting its own

industries, in dealing with its source of

revenue and in regulating its own foreign

trade; or that would necessitate the adoption

of duties discriminating against imports from

other nations, and more especially the same

measure for securing reciprocity of trade

with any foreign country in such of the pro-

ducts of the trade of the country as may be

freely interchanged with advantage to both

would receive the favorable consideration of

this House.

WICHITA, Kans., April 12.—Major Barker

arrived here, last night, from Oklahoma, and

reports that the soldiers are not equal to the

task of keeping the boomers out. They slip

into the country and conceal themselves so

effectually in the woods that the scouts can-

Fe Road is guarded and only those having

permits are allowed to go off the trains. The

Santa Fe Road has nearly completed the de-

pot at Guthrie, and workmen are engaged on

the Land Office building at Purcell. The

border is black with boomers, awaiting the

opening of the country. Many of them are

in very destitute circumstances. Every south-

bound train arriving here is crowded, and the

wagon caravans are passing in an endless

chain.

SPECIAL BUSINESS NOTICES.

THE MOTHER GUIDING

Her children through the perils of infancy may be compared to a pilot steering a vessel through seas of dangers known to him alone. The mother, the good woman's anxieties arise from the fear of the young Cough, Croup and Diphtheria, the last two being especially serious and fatal. Yet multitudes of mothers now rely upon Dr. Kennedy's Cherry Balm as a tried, trusted and successful specific for all these complaints. Containing no harmful ingredients it is wonderfully adapted to relieve the ones. Given according to directions, if necessary in large doses it causes vomiting, it relieves Croup in a few minutes. It renders Whooping Cough while running its usual course, much less wearing on the strength of the child, and is an invaluable auxiliary in the treatment of that dread disease, diphtheria. In fact no home or nursery is properly equipped unless a bottle of the Balm is always on hand. And for the blood, Dr. Kennedy's Favorite Remedy should stand by its side.
